

**The 11th Asian Regional Conference (ARC-11) of IAEG**  
**November 28-30, 2017**  
**"Engineering Geology for Geodisaster Management"**

**Welcome !!**

On behalf of Organizing Committee of the 11<sup>th</sup> Asian Regional Conference of IAEG (ARC-11), I cordially invite you to take part as a sponsor/exhibitor in the conference which is going to be held from 28-30 November, 2017, Kathmandu, Nepal.

The 10<sup>th</sup> Asian Regional Conference of IAEG was held in Kyoto, Japan on 2015. This year became fortune to Nepal for getting this opportunity to conduct this conference (ARC-11) for the second time. This event will provide platforms for scientists from all the continents to present research findings and exchange professional experiences and views on the various aspects of engineering geoscience. For further information please visit the official Conference website: <http://iaegarc11ngs.com>. The location of the Conference will be Hotel Yak and Yeti, Kathmandu, Nepal.

Nepal Geological Society is a professional geoscientific organization founded in 1980 with over 800 members and nearly one third of them are international scientists. The Society is the National Group Member of the International Association of Engineering Geology and the Environment (IAEG) and was the member of Nepal National Committee on International Decade for Natural Disaster Reduction (IDNDR) to led the IDNDR activities in Nepal for a decade.

During the Conference, the exhibition will play a key role in enabling us to bring out cross- cutting issues of the national and international level. Your participation as a sponsor and/or exhibitor will provide an opportunity to manifest your activities and products to the Conference participants. Sponsorship can provide you with the exposure of your corporate/products and brand awareness, and create positive link about your activities in attendee's mind. In the following you will find further information on the Conference Sponsorship.

Thank you for considering this invitation to join the 11<sup>th</sup> Asian Regional Conference of IAEG as a sponsor.

We look forward to seeing you in Nepal.

## **BRIEF INFORMATION ABOUT ARC-11**

For last 50 years, the International Association for Engineering Geology and the Environment (IAEG) brings together all engineering geological professionals and researchers into a single forum through various regional and international conferences and it is serving excellently to further development of engineering geology discipline and promoting many national groups around the globe. Nepal Geological Society also has an affiliation with IAEG as Nepal National Group and it is assisting IAEG by conducting various IAEG related conferences.

This is the second time that an IAEG Asian Regional Conference is going to be held in Nepal — a popular destination for geo-scientists and tourists. This series of international conference has been an instrumental forum for the advancement of Engineering Geology in Asia. The forthcoming event is going to be yet another building block to enhance the geo-engineering knowledge and to understand further the Engineering Geology in this part of the globe.

The conference is a forum of all geoscientists and engineers for a collegial discussion and knowledge exchange and sharing of new research findings in the field of Engineering Geology and geodisasters. This will offer a spectacular opportunity for engineers, companies, scientists and agencies to meet and take further step to enhance the current state of Engineering geology.

The Conference will cover the following themes:

1. Engineering Geology of Landslides
2. Neotectonics
3. Geohazards in Asia
4. Engineering Geology in sustainable development and urban planning
5. Foundation, underground geology, groundwater
6. Tunneling and related geodisaster management
7. New Technology
8. 2015-Gorkha Earthquake
9. Climate modeling for geohazard assessment
10. Marine Engineering Geology and related geohazards
11. Engineering geology of mines and quarry sites
12. Geoethics in Engineering Geology and Geodisaster information
13. Prevention of Geo-disaster sites and Geopark Management
14. Relationship between slope instabilities and road/railway presence

**The 11th Asian Regional Conference (ARC-11) of IAEG**  
**November 28-30, 2017**  
**"Engineering Geology for Geodisaster Management"**

15. Land subsidence in coastal and inland areas
16. Engineering geology for disaster risk reduction
17. Response and reaction of earth materials to natural phenomena
18. Integrated engineering geology in infrastructural development for stability and sustainability
19. Case studies for geohazard management
20. Rockfall hazard and its mitigation
21. University courses on engineering geology
22. Other geohazards and hazard management
23. Others – related to engineering geology and geodisaster management.

These topics will be discussed in specific Sessions of the Conference, which you can find at: <http://www.iaegar11ngs.com>. Following countries have already submitted registration for the conference.

Australia	China	Ethiopia
Greece	India	Indonesia
Italy	Japan	Malaysia
Portugal	Republic of Korea	Russia
Sri Lanka	USA	Uzbekistan

## **WHY and HOW TO SUPPORT ARC-11of IAEG?**

The ARC-11of IAEG is expected to attract over 300 delegates comprising a mix of international and Nepali participants with interests across a broad range of disciplines. Delegates will be drawn from industry, government agencies, research institutes, and universities.

The ARC-11 of IAEG will provide your organization with opportunities that include:

- Exposure at a premier Conference devoted to the Engineering Geology industry/ research field
- High visibility on the official Conference website and in Conference marketing materials
- A platform for networking and do business with key decision makers
- An arena to capture and secure new prospects whilst enhancing your corporate profile with existing clients
- The opportunity to increase your brand recognition locally and internationally

Nepal Geological Society is decided sponsorship plan for ARC-11. For sponsorship, one unit of sponsorship is NRs. 50,000 for local sponsor or US\$500 for international sponsor. Sponsorship of minimum 4 units will be accepted for various benefit. Organizing committee has right to accept or reject the proposal of sponsorships without any reason. Details on Platinum, Gold and Silver Sponsorship packages are given below.
